

1mw solar power plant cost Vatican City

How will a solar plant benefit the Vatican?

The Pope has given full authority to two special Commissioners to supervise the plant's construction, ensuring that the project is carried out efficiently and effectively. The energy generated by this solar plant will cover all the Vatican's energy needs, eliminating dependence on non-renewable energy sources.

Where is Vatican Radio's New solar power plant located?

The plant will be located in Santa Maria di Galeria, some 11 kilometers from Rome, where Vatican Radio's broadcasting station is located. Not only will this project generate renewable electricity, but it will also be integrated with the land's agricultural needs, combining modern technology with sustainable practices.

Does the Vatican need a solar plant?

The implementation of a solar plant not only improves the Vatican's environmental sustainability, but also offers economic and social benefits. By generating its own energy, the Vatican can save on light. This is especially relevant in a context where the price of light is a constant worry for many.

Who entrusted the construction of the agrivoltaic plant?

The construction of the agrivoltaic plant has been entrusted to the President of the Governorate of Vatican City State, Cardinal Fernando Véregez Alzaga, LC; and the President of the Administration of the Patrimony of the Apostolic See, Archbishop Giordano Piccinotti, SDB.
