

Kazakhstan is a significant producer of coal, crude oil and natural gas, and a major energy exporter. While coal dominates the country's energy mix, renewable sources of energy account for 9% of its electricity generation. ... Kazakhstan ...

Zenith Energy has announced that, as it is now in the advanced stage of finalising terms for the potential acquisition of oil production and development assets, it has incorporated a subsidiary in the Republic of Kazakhstan, named Zenith Munay LLP.. With reference to the three memorandums of understandings announced to the market during the ...

Typical green energy projects implemented by 365 Energy, including many rooftop solar power projects for Vietnamese and foreign businesses. The projects have been contributing to reducing dependence on fossil fuels, reducing greenhouse gas emissions, improving air quality and promoting economic growth and development.

Founded as an electrical motor factory by Ali Metin Kazanc? in 1968, AKSA manufactured its first generator in 1984 and became an expert in machinery and hardware for electrical energy supply in a short amount of time. In 1994, Akxa community became corporate under the name Kazanc? Holding and reorganized, achieving its current structure.
