

470 Solar Bucket Bracket

Which solar panels fit on the console+?

The ConSole+ provides an angle of 15 degrees and can be fitted to flat roofs with a pitch of up to 5 degrees. Many commercially available framed PV modules fit on the ConSole. Please check the Console CS+ manual for the panel dimensions and panel mounting hole centres and compare this to the solar panel data sheet.

What are solar panel brackets made of?

Marine-Grade Materials Ready for the elements Our solar panel brackets are made of a T66 graded alloy, which we use for its incredible reliability, versatility and high strength-to-weight ratio. T66 is used in shipbuilding and offshore industry, so you will never have to worry about weather or the elements.

What size solar panels can be fitted on a console+?

Please note, Max module width 1015 mm (generally solar panels under 400w) The ConSole+ provides an angle of 15 degrees and can be fitted to flat roofs with a pitch of up to 5 degrees. Many commercially available framed PV modules fit on the ConSole.

Why should I choose a T66 grading solar panel bracket?

Key features Reliable, strong and durable Our solar panel brackets were designed in the UK Barely visible on your roof T66 grading means they are certified for offshore use Black Anodised Aluminium Rail & Rail Connector Rail fixtures will be tailored to the exact requirements of your installation.

What are solar panel clamps made of?

Get even more security, stability and durability with these hard wearing clamps, made out of sleek black anodised aluminium for extra quality and long-lasting strength. Clamps are placed at intervals around the edges of your solar panel mounting brackets, giving extra protection from the elements. Marine-Grade Materials Ready for the elements
