JLG is a leading supplier of access equipment, including various man lifts, telehandlers and mobile elevating work platforms (MEWP)--formerly called aerial work platforms (AWP). An aerial work platform can help you reach tasks at height with enhanced safety and greater productivity, whether you need to access work at 8 ft or 185 ft.

Equip yourself with a 180 ATJ aerial work platform to easily get around obstacles and work at heights, even in the most remote areas. Thanks to its articulated telescopic boom, this model offers great precision of movement and allows you to position yourself easily in the work area (max. 18.18 meters high).

A scissor lift or aerial work platform raises you at the right workplace by pushing up a platform. There are devices that can take you to a small altitude. Also scissor lifts that can bring you to a large height difference. Electric aerial work platforms have batteries in the chassis, so the device can move sideways and steer the platform ...
