What is a Franklin WH energy storage system?

FranklinWH currently offers a single energy storage system model it calls Franklin Home Power system, or FHP for short, and it's been turning heads in the industry and the marketplace. The Home Power System comes in two parts: an AC-coupled battery called the aPower and a smart load control system called the aGate.

Who is franklinwh energy storage?

FranklinWH Energy Storage, Inc. is a newcomer to the United States residential battery market. The company was founded in 2019 and is currently headquartered in San Francisco, CA. Before the FHP system, the company was mostly involved in creating power electronics for the utility-scale market.

Where can I buy Franklin WH?

FranklinWH is available in distribution via BayWa r.e., Greentech Renewables, Inception Energy, Fortune Energy, The Power Store, Van Meter, Inter-Island Solar Supply, R&R Solar Supply, and SolWel. FranklinWH's ascent in home energy storage is due to its flagship system, Franklin Home Power (FHP), which is more robust than a typical ESS.

Is franklinwh a 'whole home solution'?

When a completely new name like FranklinWH made its initial U.S. rollout at Intersolar 2022, touting a true "whole home solution," I was curious how it would fare. One year later, and FranklinWH has arguably made more strides than any other home ESS company.

Can franklinwh power a home?

Beyond supporting a home's main panel, FranklinWH offers a key industry first: The ability to power and control up to three additional large loads, including such things as HVAC, pool heating, and electric vehicle charging. With the capability to scale up to 15 units for a total of 204 kWh, we deliver more to power people's home and life.
