

Afore hybrid inverter Christmas Island

What is the afore hybrid inverter?

The Afore hybrid inverter's ability to seamlessly manage energy from solar panels and battery storage enhances the flexibility and resilience of Brookfield's solar energy operations.

What is a hybrid inverter?

The Afore hybrid inverter is a sophisticated and versatile energy solution designed to bridge the gap between renewable energy sources and traditional power grids. Hybrid inverters, like those offered by Afore, are integral components in modern solar energy systems, enabling both grid-tied functionality and battery storage capability.

Why did Brookfield use afore hybrid inverters?

Brookfield Renewable Energies Ltd's decision to use Afore hybrid inverters for its solar panel installations with battery storage underscores its commitment to advanced technology and efficiency in renewable energy systems.

What is a AF series Storage inverter?

The Afore AF Series storage Inverters are designed to increase energy independence for homeowners. The power range is from 3.0kW to 9.6kW, compatible with high voltage (80-495V) batteries. Energy management is based on time-of-use and demand charge rate structures, significantly reduce the amount of energy purchased from public grid.

Are afore inverters NRS compliant?

With a global footprint backed by 13 years of R&D, our inverters are ranked as one of the top 10 in the world achieving numerous awards for excellence in both string and hybrid storage solutions across the globe. All Afore products distributed in South Africa are NRS 097-2-1 compliant and approved for use on the grid by the City of Cape Town.
