

What is akkugrain?

AkkuGrain is the first protective agent specially developed for the transportation and storage of lithium-ion batteries. Made from purely organic components, AkkuGrain only reacts in the event of a thermal runaway. Curious? Ask your questions here! When heat is released, the components of the AkkuGrain bind toxic and flammable gases.

What can akkugrain do for You?

AkkuGrain is available in different bag sizes and as bulk material. As a manufacturer, we offer you complete solutions for the transportation of lithium-ion batteries. At your request, we can also develop individual solutions for lithium-ion batteries, regardless of whether they are new, defective or critically damaged.

Is akkugrain a combustible material?

AkkuGrain is officially certified and patented as a non-combustible material. AkkuGrain ensures a temperature reduction in the event of a thermal runaway due to its composition. Due to its low specific density, AkkuGrain is light, approx. half the weight of sand.

In 2023, the Latvian grain market increased by 18% to \$447M, rising for the third consecutive year after two years of decline. Over the period under review, the total consumption indicated resilient growth from 2012 to 2023: its value increased at an average annual rate of +5.5% over the last eleven years. The trend pattern, however, indicated some noticeable ...

grain (Kunkulberga et al., 2007; Stepien et al., 2016). The volume weight is used as an index of rye grain quality, and minimum volume weight requirement for food grain grown in Latvia is 700 g L<sup>-1</sup>. The 1000 kernel weight depends on grain density and size and the 1000 kernel weight of rye grain in Latvia is

The average yield of grain in Latvia amounted to 4.1 tons per ha in 2022, growing by 7.3% against the previous year. In general, the yield, however, continues to indicate a relatively flat trend pattern. The most prominent rate of growth was recorded in 2019 with an increase of 42%. Over the period under review, the average grain yield reached ...

Grain and Feed Update\_Warsaw\_Latvia\_04-26-2021.pdf Total Latvian wheat, rye, mixed grains, triticale, barley, corn, and oat production in marketing year (MY) 2021/22 is forecast at 3.2 million metric tons (MMT), a 7.4-percent decrease from MY 2020/21.

Transport Minister Kaspars Briškens (Progressives) has again reiterated that imports and transit of Russian and Belarusian grain should be included in the European Union (EU) sanctions list, Latvian Television reported on January 3.

RIGA, LATVIA -- Dobeles Dzirnavnieks, Latvia's largest grain processor, announced it has launched a large-scale development project in which it will invest 30 million euros, according to the Baltic Times. During the next two years the company said it will invest more than 18 million euros in organic grain processing and processing infrastructure, ...

The amounts of activated carbon in the AkkuGrain and the adsorption capacity of the diatomaceous earth in the Grain SUPER as well as of the perlite in the AkkuGrain LIGHT, remove the solvents, which have leaked out, detoxify the ...

382,808 tonnes of food cereals have been imported from Russia into the European Union (EU) through the border inspection posts of Latvia in 11 months this year, including 61,894 tonnes imported in November, the Director of the Border Control Department of the Food and Veterinary Service (PVD) Iveta ?ice-Tr?de told LETA on December 4.

The amounts of activated carbon in the AkkuGrain and the adsorption capacity of the diatomaceous earth in the Grain SUPER as well as of the perlite in the AkkuGrain LIGHT, remove the solvents, which have leaked out, detoxify ...

The issue of the ban on imports of grain from Russia has been raised in Latvia for a long time, but until now the ruling coalition stuck to the position that a joint decision of the European Union as a whole (EU) is needed and it is unwise for Latvia alone to take it, because it would be a restriction "only on paper" that can be easily ...

SIA Elagro Trade is one of Latvia's leading grain, seed, crop protection, and fertilizer businesses, operating since 2010 with more than 15% of the total Latvian grain market. The company's grain ...
