

Alaska energies Ethiopia

What is Alaska Energy Metals?

Alaska Energy Metals is spearheading the development of a large-scale nickel project in the interior of Alaska, aiming to supply the essential strategic metals required to secure America's energy future and drive the energy revolution. Why Alaska Energy Metals?

Why is energy important for Ethiopia?

Energy is one of the most significant sectors for Ethiopia's economic growth and development and is expected to increase significantly in the medium run. Ethiopia has abundant renewable energy resources and the potential to generate over 60,000 megawatts (MW) of electric power from hydroelectric, wind, solar, and geothermal sources.

When will Alaska Energy Metals' MRE update be released?

Alaska Energy Metals Chief Geologist Gabe Graf commented: "Now, with all 2024 results received from our Eureka resource expansion drill program, we can work to calculate an update to our MRE and anticipate producing this update in the first quarter of 2025."

What is energy sector support in Ethiopia?

The focus of energy sector support in Ethiopia is aligned with Power Africa 2.0 objectives, which include advancing sustainable development through private sector led partnerships, promoting economic prosperity, and an increased focus on the enabling environment, transmission, and distribution. Technical assistance provided includes:

What benefits does Alaska Energy Metals have?

The project benefits from a favorable infrastructure setup, paved highways traversing the project area, gravel road access, and proximity to main rail and grid power systems. Stay up-to-date with the latest in Alaska Energy Metals news including corporate updates, press releases, drill programs, and more.

How much electric power can Ethiopia generate?

Ethiopia has the potential to generate over 60,000 megawatts (MW) of electric power from hydroelectric, wind, solar, and geothermal sources. In addition, in 2022 the GOE certified the presence of seven trillion cubic feet of natural gas reserves in the Ogaden Basin.
