Excited to be heading to Curaçao for the upcoming Renewable Energy Summit! ?? I'll be discussing an often-overlooked opportunity in the renewable energy space--small-scale #geothermal projects (1-5 MW) and their potential to transform local energy landscapes. Geothermal power can offer sustainable, reliable, and cost-effective energy solutions, especially for small islands ...

This innovative approach involves harnessing solar energy in orbit around Earth and transmitting it wirelessly to ground-based stations using high frequency radio waves. The energy will then be converted into electricity and fed directly into the power grid, providing clean and renewable energy.
