Does GE own Alstom?

Originally, GE wanted to purchase the entirety of Alstom's power generation operations, whereas under the new deal it will take full ownership of the global coal and gas-fired turbine operation, while entering into three separate 50-50 joint ventures, with Alstom covering the areas of power grid, renewable and nuclear turbines.

Is Alstom still a popular power source?

While the coal power market, in which Alstom still packs significant punch when compared with the decline it has experienced in its gas turbine operations, is under threat from the shift towards more environmentally friendly fuel sources, it remains a popular power source, particularly in emerging markets.

Why is Alstom selling steam turbines?

"Alstom is selling steam turbines and also coal fire technologies to customers that probably will increasingly shift to gas or renewables over the coming years and decades," says Pozzi. Financial analyst Trefis also sees the value of the steam turbine operations at Alstom in relation to exploiting growth markets.

What does Alstom Americas do?

Alstom Americas President Michael Keroull said: "Together with our partners, Steuben County Industrial Development Agency, Binghamton University and Norfolk Southern, we will use this project to develop and test new battery and rail technologies to help advance efforts to decarbonize the freight sector."

What happened to Alstom signalling North America?

The deal includes all operations and products under Alstom Signalling North America and the transfer of 800 employees. Alstom said that despite the sale, it would continue some activities in North America around CBTC and ETCS. Credit: Brian Logan Photography / Shutterstock.

Should GE invest in Alstom steam turbines?

Financial analyst Trefis also sees the value of the steam turbine operations at Alstom in relation to exploiting growth markets. "Alstom will fill this gap well in GE's portfolio, as its steam turbines are not only highly advanced but also have a large installed base in Europe," the company said.

France-based Alstom will service a 350MW power plant in Thailand under a 10-year operations and maintenance (O& M) contract signed with Eastern Power and Electric (EPEC). The new EUR90m contract is an extension to the existing O& M contract for the gas-fired generating station located at Khlong Daan in the Bang Bo Samut Prakan province.
