Altrans energies Indonesia

La santé des câbles électriques, tel est le marché visé par la startup Altrans Energies. Créée en 2020 par Cornel Ioana, par ailleurs maître de conférences à Grenoble INP depuis 2006, l'entreprise est basée dans les locaux de Grenoble INP Ense 3, sur la presqu'île de Grenoble, et se compose de cinq collaborateurs. Les effectifs devraient passer à sept, voire ...

The active sensing developed by Altrans Energies is a concept that exploits the propagation of a known emitted waveform. The physics of wave propagation through dispersive media form the foundation for a powerful approach to identifying and localizing instabilities, anomalies, and pre-faults in power grids and pipelines.
