

Alumo energy Burkina Faso

How is energy used in Burkina Faso?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

How much solar energy does Burkina Faso have?

Early solar energy. Burkina Faso benefits from daily sunlight of 5.5 KWh/m² for 3000 to 3500 hours per year, with a uniformly distributed solar resource across the national territory, yielding an

Who is Alumo Solar Energy Company?

Alumo Solar Energy Company offers an end-to-end solution from designing your solar system to meet your needs and budget to the procurement and installation of your system. We also offer a solar rental option should you not be ready to commit to a capital outlay upfront.

Can Burkina Faso achieve 95% electricity access?

The country aims to reach 95% electricity access, with 50% in rural areas and universal access to clean cooking solutions in urban areas, with 65% in rural areas by 2030, up from 9% in 2020. The utilisation of Burkina Faso's renewable resource potential would enable the country to reduce its heavy reliance on thermal generation and energy imports.

Is biomass a source of electricity in Burkina Faso?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Burkina Faso: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

How long does a power outage last in Burkina Faso?

The average power outage time was 233 hours in 2018, compared with 172 hours in 2017. In addition, the cost of energy remains high for households and businesses, at XOF 75 per KWh of high-voltage electricity in 2019. No on-grid IPPs operating in Burkina Faso

Fondé en 2008 en tant qu'association et formalisée en 2019 en tant qu'entreprise individuelle, SOS Énergie est née de la volonté de 255 membres passionnés par les énergies renouvelables. Notre siège est situé à Ouagadougou, Burkina Faso.

Financée par des prêts de 999 millions de francs CFA, Speedtech Energy-Burkina Faso emploie une soixantaine de salariés et produit des plaques solaires d'une capacité totale de 10.000 mégawatts par an. Outre ces unités...
