

# American Samoa sun panel roof

**Roof Slope & Shape.** On a flat roof, solar panels can be easily mounted on ballasted racks that tilt them toward the sun. A 30-degree roof pitch is ideal. We can flush-mount the solar panels for best sun exposure. A 15-degree pitch works well. Our racking can tilt the solar panels slightly steeper to get the best sun exposure.

Selecting the Ideal Roofing Material for Florida's Sun-kissed Cities: An Expert's Guide. By: August 9, 2023. ... The seams are raised above the roofing panel level, reducing the risk of leakage, a feature essential for Port Charlotte's heavy rain seasons. The metal surface reflects sunlight, reducing heat absorption and lowering energy costs.
