

Ampere storage India

What is ampere hour energy?

Ampere Hour Energy, established in 2017 by IIT Bombay graduates, focuses on creating impactful energy storage solutions to support the transition to renewable energy. Their advanced lithium-ion systems, ranging from a few kWh to several MWh, enhance the reliability of solar and wind power by addressing its intermittent nature.

Why should you attend amperehour energy & battery energy storage systems (BESS)?

Your overwhelming interest in AmpereHour Energy's solutions and the exciting conversations around Battery Energy Storage Systems (#BESS) truly made this a standout event for us. We are thrilled by the level of engagement and the opportunity to exchange knowledge with industry leaders, #EPCs, developers, and #energy enthusiasts alike.

Why should you use amperehour?

AmpereHour's solutions have been used across the power value chain - from generation to distribution, behind the meter and off-grid - to optimize energy costs, maximize renewable generation, reduce dependency on diesel, generate predictable renewable power and much more.

Ampere India designs and supply wide range of octagonal fabricated poles using premium quality raw materials that are customized to client specification.
