

# Ancient Yellow River Solar Panel

Was the Yellow River an engineered river?

“The Yellow River has been an engineered river-- entirely unnatural -- for quite a long time.” The river, however, was far from tame. A massive flood around AD 14 cost the lives of approximately 9.5 million people, the researchers say, and seemed to have marked the beginning of the end for the Western Han Dynasty.

Are humans altering the Yellow River's natural course?

Now, evidence has emerged that for nearly as long as humans have been taking advantage of the Yellow River's resources, they have also been altering its natural course. Beginning around 3,000 years ago, researchers found, people living along the Yellow River started building levees and other flood mitigation systems.

Did the Yellow River flood end the Han dynasty?

A massive flood around AD 14 cost the lives of approximately 9.5 million people, the researchers say, and seemed to have marked the beginning of the end for the Western Han Dynasty. Devastating Yellow River floods continued to be the norm throughout Chinese history, and today, massive dams and dykes occur along the river to try to contain it.
