

Andorra intelligent energy limited

Who is intelligent energy?

Intelligent Energy Limited is focused on the development and manufacture of its lightweight hydrogen fuel cell products ranging from 800W to 300kW+ for customers in the automotive, aerospace, power generation, telecoms, materials handling and unmanned aerial vehicle (UAV) sectors.

Where is intelligent energy based?

Our headquarters and manufacturing are based in the UK, with our systems being used by our partners and customers worldwide. Intelligent Energy is powering the hydrogen future by developing and manufacturing outstanding zero emission hydrogen fuel cell products.

Who owns Intelligent Energy?

Intelligent Energy was acquired by Meditor Energy, part of the Meditor Group, in October 2017. In 2018, Intelligent Energy announced the launch of its IE-LIFT 802/804 fuel cell modules for power generation applications such as stationary power, micro-grids, telecoms, and critical infrastructure.

Where did Intelligent Energy come from?

The origins of Intelligent Energy began at Loughborough University in the UK during the late 1980s, when the University became one of Europe's first research and development centres for proton-exchange membrane (PEM) fuel cell technology. In 1995, the UK's first kW-level PEM fuel cell stack was produced by the R&D team.

Intelligent Energy (IE), the UK's leading fuel cell developer and manufacturer, has unveiled a brand-new hydrogen fuel cell system that is smaller and more powerful than any other solution on the passenger car market - ...

Loughborough - 1st November 2023 - Intelligent Energy Limited's (IEL) hydrogen fuel cells have been chosen by mobile elevating work platforms (MEWP) manufacturer Niftylift and plant hire firm Speedy Hire to create a new zero ...

This fuel cell line includes retrofit kits that can be integrated into existing UAS products, enhancing mission performance by increasing endurance. The IE-SOAR technology provides a solution to the limited flight times associated with ...

Abstract. This white paper details the benefits of fuel cell use in stationary power applications and Intelligent Energy's evaporatively cooled architecture in particular. It highlights the potential thermal benefits offered by utilising the ...

Intelligent Energy Limited is focused on the development and manufacture of its lightweight hydrogen fuel

Andorra intelligent energy limited

cell products ranging from 800W to 300kW+ for customers in the automotive, aerospace, power generation, ...

Intelligent Energy unveils the IE-FLIGHT family of products at FIA24, high-performance fuel cells specifically developed for aviation using the company's patented high-temperature operation architecture By Sarah ...

Intelligent Energy's hydrogen fuel cell technology enables your UAV fleet to fly significantly longer. IE-SOAR(TM) 800W is our latest product for UAVs and has the highest output in the range. It is built on years of research and learning for ...

IE-LIFT fuel cells. Our IE-LIFT battery box replacements are specifically designed to power material handling equipment (MHE), replacing the existing battery pack. Using our IE-POWER fuel cells at the core, IE-LIFT products include integrated hydrogen storage, a battery and a controller in a 210mm wide package.. Our first product in the range, now available to ...

About Intelligent Energy Limited. Intelligent Energy is a leader in the development and manufacture of cutting-edge hydrogen fuel cells that overcome the limitations of conventional battery-powered systems. The privately-owned company, which has 600 patents in place, has been innovating for more than two decades in the automotive, aerospace ...

At Intelligent Energy, we strive to deliver class-leading and hands-on product support to all of our customers. ... Intelligent Energy Limited is a registered company in England and Wales under Company Number: 03958217. Website by Glasshouse Creative. Top ...

Intelligent Energy Limited is an active company incorporated on 28 March 2000 with the registered office located in Loughborough, Leicestershire. Intelligent Energy Limited was registered 24 years ago. Status. ACTIVE. Active since incorporation. Company No. 03958217. Private limited company. Age. 24 years.

The origins of Intelligent Energy began at Loughborough University in the UK during the late 1980s, [1] when the University became one of Europe's first research and development centres for proton-exchange membrane (PEM) fuel cell technology. In 1995, the UK's first kW-level PEM fuel cell stack was produced by the R& D team. In June of that year, Advanced Power Sources ...

¡Descubre la moda auténtica en Limited Andorra! Explora nuestra exclusiva selección de zapatillas y camisetas de última tendencia. ¡Compra con estilo y comodidad en nuestra tienda online! Entrega rápida y opciones de pago seguras.

Focused on the development of lightweight, high efficiency, hydrogen fuel cell systems. We're one of the world's leading hydrogen fuel cell manufacturers, delivering a range of zero-emission hydrogen fuel cell products - from 800W ...
