

How does fuel tourism affect energy consumption in Andorra?

(Source: the authors, based on the data from the national GHG inventory) One characteristic feature of energy consumption in Andorra is the significant influence of fuel tourism, in other words, the amount of fossil fuels for road transport sold in Andorra but actually consumed in the neighbouring countries.

What is the sectoral plan for energy infrastructures in Andorra?

In this regard, the Sectoral Plan for Energy Infrastructures in Andorra also provides for the use of biomass energy by means of these forest management plans and considers that the management must ensure their maintenance and improve the sink capacity.

How can Andorra support sustainable mobility?

However, aid for sustainable mobility should be diversified and potential allowances or premiums associated with the implementation of charging points or the promotion of individual journeys on foot or by PMVs (personal mobility vehicles without emissions) should be studied via Andorra's public transport integrating platform (Mou\_T\_B) or any other.

What are TSMC's environmental externalities?

TSMC's primary environmental externalities come from Scope 1 and Scope 2 GHG emissions, which accounted for 96.6% in the 2020 analysis. To mitigate the external costs brought on by TSMC operations, the company continues to focus on low-carbon manufacturing, improve energy efficiency, increase the use of renewable energy, and more.

How much energy does TSMC use in total?

TSMC consumed a total of 16,900 GWh in energy in 2020. Electricity made up 95% of the energy used, natural gas came second at 5%, and diesel accounted for less than 0.1%. Note 2: The data covers TSMC fabs in Taiwan, TSMC (China), TSMC (Nanjing), WaferTech, and VisEra.

Why is decarbonisation important in Andorra?

In Andorra, the far-reaching decarbonisation of the energy sector is a key condition for achieving the most demanding objectives in the fight against climate change, given that this sector accounts for 95% of the country's global GHG emissions.
