

Anern solar Saint Barthélemy

Who is anern solar energy?

Anern is a leading solar energy manufacturing company specializing in the R&D and production of solar energy systems, solar lights, LED lights since 2009. We have offer high-quality solar energy products and satisfactory services to more than 10,000 users around the world. OEM/OEM is Available.

What is anern commercial solar lithium battery solution?

Anern commercial solar lithium battery solution consists of high-voltage lithium battery, MPPT controller, inverter, high-efficiency solar panels and other accessories. With a service life of up to 25 years, it reduces dependence on traditional energy sources. Energy costs can be significantly reduced, thus increasing the return on investment.

What is an anern Solar System?

The main material of solar panels is silicon, which absorb sunlight then convert it into electrical energy to generate. Anern's solar systems include off-grid solar system and grid-connected solar system. It is a portable solar energy storage system that can be flexibly set in a variety of modes.

Who is anern solar and LED lighting?

In China, Anern has been engaged in Solar and LED lighting for more than 15 years. Exploration, innovation, and development are the basic development principles of Anern. Anern has been providing the world with high-quality solar lights and solar power systems for a long time, which is the basic recognition of the whole industry.

What types of solar systems does anern offer?

Anern's solar systems include off-grid solar system and grid-connected solar system. It is a portable solar energy storage system that can be flexibly set in a variety of modes. Anern has two low-frequency inverters, which are WSPI series with high conversion efficiency and SPI series with UPS function.

What are anern N-series solar panels?

Anern's N-Series solar panels utilize a combination of half-cut cell technology and bifacial modules. It also utilizes Hot 2.0 technology for increased reliability. Compared to traditional solar panels, it absorbs sunlight on both sides so that the power output and efficiency of the module is greatly improved.
