

Can Anguilla benefit from a global tech boom?

With revenue from .ai domain registrations estimated to be a notable percentage of the territory's gross domestic product (\$300 million in 2021), Anguilla is a case study of how even a small Caribbean island can benefit from a global tech boom. Benj Edwards is Ars Technica's Senior AI Reporter and founder of the site's dedicated AI beat in 2022.

Will anguilla's 'ai' domain make \$30 million a year?

Anguilla, a tiny British island territory in the Caribbean, may bring in up to \$30 million in revenue this year thanks to its .ai domain name, reports Bloomberg in a piece published Thursday. Over the past year, skyrocketing interest in AI has made the country's .ai top-level domain particularly attractive to tech companies.

How much money does Anguilla get from AI?

The income now accounts for about 20% of Anguilla's total government revenue. Before the AI boom, it hovered at around 5%. Anguilla's government, which uses the gov.ai home page, collects a fee every time an .ai web address is renewed.

Does Anguilla have an AI industry?

Anguilla doesn't have its own AI industry, though Premier Ellis Webster hopes that one day it will become a hub for the technology. He said it was just luck that it was Anguilla, and not nearby Antigua, that was assigned the .ai domain in 1995 because both places had those letters in their names.

How much does Anguilla cost?

Registrars like GoDaddy must pay Anguilla a fixed price--\$140 for a two-year registration--and the prices are rising due to demand. Bloomberg says that Anguilla brought in a mere \$7.4 million from .ai domain registrations in 2021, but all that changed with the release of OpenAI's ChatGPT last year.

How has artificial intelligence impacted Anguilla?

The artificial intelligence boom has benefited chatbot makers, computer scientists and Nvidia investors. It's also providing an unusual windfall for Anguilla, a tiny island in the Caribbean. ChatGPT's debut nearly two years ago heralded the dawn of the AI age and kicked off a digital gold rush as companies scrambled to stake their own claims...

Our team put a lot of effort (!) into crafting these 53 fart and excrement sounds; crafted in our stomachs and released with patience. Recorded in stereo for a more satisfying experience, these sounds are all real recordings of silent farts (you know, the dangerous ones), soft and harder ones, defecating wet farts while on the toilet (which some might call "sharts"), the awaited and ...

Powerfull Systems was created in Los Angeles, California in 1998. Our early vision was to provide the best lighting control systems and window shading solutions for our clients. To facilitate the fulfillment of our vision we became a Lutron Certified Dealer with the launch of Homeworks Interactive. Shortly after, we reach the Platinum Dealer ...
