Who is anodox energy systems?

Janis Vitenbergs, Latvia's Minister of the Economy Founded in 2016, Anodox Energy Systems serves the needs of the rapidly growing electric mobility industry by meeting the increasing demand for high-capacity batteries. Anodox has supported internationally renowned brands such as Volvo, NEVS, Jinpeng Auto, Geely, Lotus, Mahindra, and Pininfarina.

Why did anodox energy systems open a factory in Riga?

"We are very glad that Anodox Energy Systems decided to open factories in Riga. This will bring investment, jobs, and income to the city as well as assess the attractiveness of opportunities that our city offers by ensuring that Riga is competitive in attracting new high-growth companies.

What brands does anodox support?

Anodox has supported internationally renowned brands such as Volvo, NEVS, Jinpeng Auto, Geely, Lotus, Mahindra, and Pininfarina. Their R&D centre in Sweden develops electric batteries for light trucks, passenger cars, marine and other vehicles.

Does anodox offer a guarantee?

The information provided on ANODOX's website does not constitute any statement of usability, suitability or guarantee other than where this is directly stated in writing to the customer. Current offers are valid while stocks last, unless otherwise stated.

How much money will anodox invest in Riga?

A total of 50 million euros will be invested and up to 300 new jobs created, according to the Ministry of Economy. The factory in Riga is to go into operation by December 2022. In the first phase, Anodox wants to produce high-quality battery packs for electric cars and light commercial vehicles in the automated factory.

Is anodox liable for a loss of data?

ANODOX is under no circumstances liable for indirect or consequential damages, such as loss of production or loss of profit, or other damages resulting from the impossibility or difficulty of using computers or information, or for loss of data.
