Two tailwinds have driven the oil and gas industry in the past year: consolidation and efficiency. During a 12-month period ending in March, E& Ps have seen a remarkable run of consolidation, with more than \$250 billion transacted. Service companies have also been following suit with their own deals, as they, too, concentrate on streamlining and improving offerings.

Energy Somalia aims to be a trusted partner to its clients with the interest to get optimized energy solutions to their business with better solutions. We are energy specialists with esteemed business experience that focuses to meet the expectations of our clients in all energy sectors.
