

The Liquid Cooled LCZ Series shore power converters are integrated with the ship's cool water system. It is rated IP44 to meet IEC 60092/507 for yachts over 24 m and has inverter redundancy for increased durability. Specifically designed in a modular fashion and compact size, the LCZ is made to fit through standard engine room door widths.

Upgrading with ASEA is a strategic move to enhance efficiency and sustainability. Modernize Operations: Replace outdated equipment with ASEA's industry-leading converters to meet current maritime technological standards. Meet Growing Power Demands: ASEA Shore Power Converters handle increasing electrical needs efficiently, ensuring systems remain capable ...

Find out all of the information about the Asea power systems product: shore power transformer AC15 / AC15-3L / AC15-3H. Contact a supplier or the parent company directly to get a quote or to find out a price or your closest point of sale.

ASEA Power Systems stands at the forefront of the marine industry, renowned worldwide for its cutting-edge power conversion equipment tailored exclusively for marine applications. At ASEA Power Systems, we collaborate with builders, refit yards, yacht management... Understanding IT, TT, and TN-S Earthing Systems. by Jasmeen Aneja | Oct ...

The Q Series is ASEA's smallest and lightest shore power converter. The unit features a stackable, modular configuration ideal for refit installations and tight spaces. The 50 kVA and higher units utilize our latest technology, which allows for reduced capacity operation should a single module be compromised.

Shore Power Converters. Liquid Cooled LCZ Series (55-150kVA) ... Dock Boost Transformers (12-24kVA) Trident Boosting System (24kVA) Trident Boosting System (48kVA) Dock Locker Systems. Dock Locker Systems (63-75 kVA) ... ASEA products are proudly made in the USA. ASEA is backed by a global support network in over 127 countries, ensuring any ...

The ASEA Trident system allows two 100A shore cords to be combined to a 200A output. The pair of Dock Boost Transformer 24"s provide three levels of boost to keep your ship powered even when input voltages sag by 35%, and the paralleling box ensures that current is shared equally between the shore cords, which allows you to maximize the amount of power you can draw ...

ASEA Power Systems" authorized service partners are within easy reach of most OEM shipyards, ensuring successful installation, commissioning, and startup. Our global presence and commitment to excellence have also been recognized at IBEX with the International Boating Magazine Export Excellence Award for outstanding international partnerships ...

With a presence in 127 countries, ASEA Power Systems ensures that professional assistance is always within reach. Our global network of authorized service providers is designed to offer you the support you need, wherever you ...

Shore Power Converters. Liquid Cooled LCZ Series; Liquid Cooled Series; AC (bulkhead) Q (modular) Vertical; Standard; Boosting Transformers. Dock Boost Transformer; Trident 24; Trident 48; Dock Locker Systems; Isolation Transformer; Support. Emergency Service and Maintenance ... AC50QTP-3, AC63QTP-3, and AC75QTP-3 Manual. by ASEA Admin | ...

In Europe, the power delivered by a 400V three-phase connection is calculated as: $\text{Power} = \sqrt{3} \times \text{Voltage} \times \text{Current} = 1.732 \times 400\text{V} \times 100\text{A} = 69.3\text{kW}$. In contrast, at 240V single-phase, the power drops to: $\text{Power} = \text{Voltage} \times \text{Current} = 240\text{V} \times 100\text{A} = 24\text{ kW}$. This results in a third of the available power compared to the European setup.

ASEA's Isolation Transformer is a drop-in replacement for Charles IsoG2 designed to protect vessel under-fittings from galvanic corrosion and to shield onboard electronics from reverse polarity and shore power fluctuations. It also ensures safety by preventing the boat from sending unintended electric currents into the surrounding water.

Shore Power Converters. Liquid Cooled LCZ Series; Liquid Cooled Series; AC (bulkhead) Q (modular) Vertical; Standard; Boosting Transformers. Dock Boost Transformer; Trident 24; Trident 48; Dock Locker Systems; Isolation Transformer; Support. Emergency Service and Maintenance; Product Maintenance Guides; Warranty; Videos; ...
