Why should you use Eaton's energy storage system?

With Eaton's energy storage systems, homes and businesses gain access to a safe, reliable and efficient power management that harnesses the full potential of renewable sources. Now you can store energy when it's available and when rates are at their lowest, and use it when you need it.

What is Eaton xStorage compact?

Eaton xStorage Compact is modular and scalable to adapt to changing power capacity needs, from growing local solar production to an increased number of on-site EV chargers. xStorage Compact is an all-in-one single rack energy storage system with a small footprint that is suitable for both commercial and industrial buildings.

How do I contact Eaton xStorage compact?

Contact sales via web form by clicking the link above, or call us: +44 (0) 1753 608 700, option 2 then option 2

Contact us via web form by clicking the link above, or call us: +44 (0) 1753 608 700 option 3, then option 2

Eaton xStorage Compact is an all-in-one single rack battery energy storage system that fits into limited space.

Does Eaton use lithium-ion batteries?

Eaton works with lithium-ion battery technology from Nissan, the world's leading electric vehicle manufacturer by volume. Eaton xStorage Compact is modular and scalable to adapt to changing power capacity needs, from growing local solar production to an increased number of on-site EV chargers.

Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. We provide sustainable solutions that help our customers effectively manage electrical, hydraulic and mechanical power - more safely, more efficiently and more reliably.

Fill out the form below, and our team will reach out via email to explore how we can meet your specific energy storage requirements. During our conversation, we'll provide access to our technical specifications and answer any questions. Please note, Moment Energy's battery energy storage systems start at a minimum project size of 288 kWh.

Eaton is a power management company with 2018 sales of \$21.6 billion. We provide energy-efficient solutions that help our customers effectively manage electrical, hydraulic and mechanical power more efficiently, safely and sustainably.

2:40. Battery energy storage systems (BESSs) play an important part in creating a compelling next-generation electrical infrastructure that encompasses microgrids, distributed energy resources (DERs), DC fast charging, Buildings-as-a-Grid and backup power free of fossil fuels for ...

Eaton e Nissan: un connubio di tecnologie consolidate e affidabili. Il sistema xStorage Home combina moduli
