

Microgrid Knowledge, the media and conference hub focused on all things microgrid and mission-critical on-site power, continues its legacy of intently highlighting the innovation springing up throughout the industry. From microgrids to minigrids, from aggregated distributed energy resource (DER) capabilities to virtual power plants, Microgrid ...

Six microgrids are being developed across European alpine states as part of a program designed to foster local energy grids. The microgrids are being constructed under the ALPGRIDS project, which focuses on creating support for microgrids and a wider understanding of their benefits. Building on six existing pilot sites in five countries, the project aims to develop ...
