Who is zebra renewables?

Active in the retail, wholesale and manufacturing sectors of domestic renewable biomass products as well as in the Industrial Energy sector. Zebra Renewables applies our deep tech and industry knowledge to asset streams (both plant and product) to deliver outsize returns from low value or waste inputs.

What opportunities are there in the renewables sector in Austria?

For more information about opportunities in the renewables sector in Austria, please contact Marta Haustein, Senior Commercial Specialist at CS Vienna: [marta.haustein@trade.gov](mailto:marta.haustein@trade.gov). Austria invests \$1.18 bn to produce 100% clean electricity by 2030. Wind, solar, hydro, biomass, storage technologies, smart distribution systems offer ...

What is Austria's 'renewables expansion law'?

Austria's "Renewables Expansion Law" (EAG), adopted in March of 2021, is a significant milestone toward the ambitious goal to produce 100% of the country's electricity from renewables by 2030. The legislation allocates \$1.18 billion for investment grants and subsidies for solar, wind, and biomass projects.

Does Austria have a high share of renewables in its electricity mix?

Austria has a high share of renewables in its electricity mix - 71 per cent in 2021 according to Eurostat data. Mountains, many rivers and high rainfall mean hydropower is the backbone of its renewables network but now the country is building on that with other forms of green energy.

Did Austria achieve the EU Renewables Directive goal in 2016?

By the end of 2016 Austria already fulfilled their EU Renewables Directive goal for the year 2020. By 2016 renewable energies accounted to 33.5% of the final energy consumption in all sectors (heat, electricity, mobility).
