With its new product range, German Generator GmbH meets the requirements of next generation Generating sets and emergency power supply. From the inquiry to the application and beyond, we guarantee you a perfect handling and first-class service. First-class references and years of partnerships prove the success of our concept.

Do automatic home generators work if there is a power outage?

Of course, it is nice to have a backup power supply for your home in case of a power outage, but automatic home generators take the convenience to another level. Immediately an outage occurs, they'll kick in without anyone lifting a finger. In some cases, you may not even realize that there's an outage except for the sound of the generator.

When is the best time to use an automatic home generator?

In some cases, you may not even realize that there's an outage except for the sound of the generator. The best time to appreciate your automatic home generator is when you're sleeping. When a power outage occurs in the middle of the night, getting up to start your generator will be very difficult.

What makes Generac a reliable generator?

Features that simplify the process for our installers include removable door panels, a base pad that requires minimal ground preparation and more efficient wiring techniques that save time on installation. Innovative engine design and rigorous testing are at the heart of Generac's success in providing the most reliable generators possible.

How much does an automatic generator cost?

That being said, we can safely say that the prices of automatic generators begin from \$6,750. There's no cap to it. Step 1 - Install the generator from all windows and doors at least 5 feet away. Step 2 - The generator must be placed on casted concrete pad because of its vibration. Step 3 - You should secure the generator on the pad with bolts.

How does the Generac Guardian series work?

Connected to your existing LP or natural gas fuel supply, it starts within seconds of sensing power loss - automatically - and runs for as long as necessary until utility power returns. Choose from just enough power to cover essential circuits or whole house coverage. Generac's Guardian Series offers benefits that few competitors can match.
