The Government of Papua New Guinea has set a target of connecting 70% of Papua New Guinea's population to renewable electricity by 2030. By 2050, the Government hopes to have reached universal electricity access throughout the country. UNDP hopes to contribute to this aim through its various initiatives in the country.

In Papua New Guinea, UNDP is delivering a range of environment, energy and disaster preparedness initiatives in partnership with Government. UNDP's efforts to support appropriate environmental and social safeguards is critical to ensuring a world that leaves no-one behind, especially the most marginalised and most vulnerable.
