Botswana's energy sector has been tied to South Africa and its southern African neighbors since its humble beginnings in the 1950s. Before 1950, Tati Concession Company (TCC), using coal from South Africa and Zimbabwe, was the only power generator in the country and supplied Francistown only (Kanduza 2009).

Botala Energy is a coal bed methane (CBM) exploration and development company focussed on developing production from its 100% owned Serowe CBM Project located in a high-grade CBM region of Botswana (and related early-stage renewable energy opportunities).
