

# Backup generator for home Switzerland

Whole Home Standby Generator Vs. Portable Generators. Home backup generators and portable generators serve as backup power solutions during a power outage, but they differ in installation, power capacity, fueling, and automation. Whole home backup generators are permanent installations connected to your home's electrical system.

5 ???&#0183; A whole-home generator, or standby generator, must be connected to a transfer switch--which disconnects your circuit panel from the electrical grid before allowing power to flow through the circuits. Portable generators require ...

The generators we offer are the perfect backup power solution for any type of home or property. If you regularly suffer from power cuts or you're looking for an alternative power solution, then a domestic generator is the best option for you.

Whole house or home backup generators start at ~\$3,000 for a 10kW model and go up to around \$30,000 for a 150kW model. Most residential homes will need a 10-20kW generator. A popular 16,000 or 16kW whole house generator from Generac will put you back about \$4,200 (plus installation, which will cost several thousand dollars at a minimum). ...

Fuel is stored in an underground tank or supplied by your home's natural gas. Standby generators are larger than portable generators (7,500 watts to 48,000 watts or more), and they're more expensive, running anywhere from \$5,000 to more than \$25,000. Standby generators need to be professionally installed by a licensed electrician.
