

Bahamas rosetta energy

What does Rosetta do?

Rosetta is an international energy developer and operator focused on transitioning the energy ecosystem in Emerging Markets to a clean and sustainable future. Utilizing LNG as a transition fuel, Rosetta displaces the use of higher GHG-emitting fuels, while developing zero-carbon solutions on a pathway to decarbonization.

What is the energy efficiency initiative in the Bahamas?

With energy-related costs estimated at 15% to 20% of annual operating budgets for small- and medium-sized hotels in the Bahamas, the Bahamian hotel industry launched a significant energy efficiency initiative in 2013 in partnership with the Government of the Bahamas to reduce energy-related costs.

How will the Bahamas reform its energy sector?

The Government of the Bahamas has discussed plans to reform its energy sector through a partial-privatization of BEC and by introducing regulation-by-contract principles to meet the capacity for future growth, implementing more economically viable renewable energy sources, and modernizing the energy sector.

Is the Bahamas ready for a sustainable future?

The Prime Minister said the choice The Bahamas faces is stark. "Continue down a path of expensive, unreliable energy or pivot towards a future where energy is sustainable, affordable and secure." He noted that this Government administration's number one focus is reducing the cost of living for every Bahamian.

Will the Bahamas have a solar water heating system?

In the next decade, the Bahamas aims to have solar water heating systems on 20% to 30% of all households, which has the potential of adding 200 GWh of heat for water per year. According to preliminary assessments, wind and solar resources offer the greatest potential for renewable energy development in the Bahamas.

What is a solar energy microgrid in the Bahamas?

This initiative involves developing solar energy microgrids across the Family Islands. This also encompasses the Government's goal of The Bahamas having a 30 per cent renewable power generation by the year 2030.

The government of The Bahamas signed a contract agreement with the Caribbean Centre for Renewable Energy and Energy Efficiency (CCREEE) that will reaffirm its BluePrint for Change ...
