

Ballard power systems inc Syria

Who is Ballard Power Systems?

Ballard Power Systems Inc. is a developer and manufacturer of proton exchange membrane (PEM) fuel cell products for markets such as heavy-duty motive (consisting of bus and tram applications), portable power, material handling as well as engineering services. Ballard has designed and shipped over 400 MW of fuel cell products to date.

Is Ballard a stock?

Ballard listed on the Nasdaq Stock Market. Ballard fuel cell stack achieved a power density of 700 watts per kilogram. First fuel cell bus presented by Ballard in Vancouver, Canada. Collaboration agreement between Ballard and Daimler-Benz for the joint development of a compact, high power density fuel cell stack.

Who owns Ballard Motor Company?

AFCC's initial ownership split was Daimler AG (50.1%), Ford Motor Company (30.0%), and Ballard itself (19.9%). In 2018, Ballard signed a contract with Weichai Power for a strategic partnership. Weichai acquired for US\$163 million 19.9 percent of Ballard's shares.

How many MW of fuel cell products does Ballard manufacture?

Ballard has designed and shipped over 400 MW of fuel cell products to date. Ballard was founded in 1979 by geophysicist Geoffrey Ballard, Keith Prater, and Paul Howard, under the name Ballard Research Inc. to conduct research and development on high-energy lithium batteries.

Why should you choose Ballard's fuel cell power products?

Benefitting from our vertical integration - ranging from Membrane Electrode Assembly (MEA), bipolar plates and stack design to complete system integration - Ballard's fuel cell power products deliver proven durability, reliability, and high power density with the lowest total cost of ownership. Explore our fuel cell products.

What time Will Ballard Power Systems hold a conference call?

VANCOUVER, CANADA - Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) will hold a conference call on Tuesday, November 5th, 2024 at 8:00 a.m.... Begin your journey towards sustainable energy solutions by scheduling a consultation with our knowledgeable fuel cell experts--let's discuss how we can drive your project forward together.

Ballard Power Systems Inc. befasst sich mit dem Design, der Entwicklung, der Herstellung, dem Verkauf und dem Service von Protonenaustauschmembran-Brennstoffzellenprodukten (PEM) für eine Vielzahl von Anwendungen. Der Schwerpunkt liegt dabei auf Stromversorgungsprodukten für Busse, LKWs, Schienenfahrzeuge, Schiffe, ...

Ballard power systems inc Syria

Ballard Power Systems Inc. ist ein kanadischer Hersteller von Brennstoffzellen mit Sitz in Burnaby bei Vancouver, British Columbia. Geschichte. 1979 wurde Ballard Research Inc. von Geoffrey Ballard gegründet und einige Zeit danach in den jetzigen Namen umbenannt. Seit ...

Ballard has developed 14 generations of fuel cell stacks and 9 generations of fuel cell systems, with special adaptations for customer needs: Customizing products for various vehicles; High-performance fuel cell stack for automotive; Tailored fuel cell systems for rail; Extensive testing for EMC/EMI, shock, vibration, and environmental resilience

From 45kW to 360kW net power, Ballard's heavy-duty fuel cell modules offer flexible and reliable solutions for your transportation and power generation needs. Powered by Ballard's unique PEM fuel cell stacks, our modules are designed ...

2 0183; BNP Paribas Financial Markets grew its position in Ballard Power Systems Inc. (NASDAQ:BLDP - Free Report) (TSE:BLD) by 79.7% in the third quarter, HoldingsChannel reports. The institutional investor owned 436,689 shares of the technology company's stock after acquiring an additional 193,658 shares during the period. BNP Paribas Financial Markets" ...

Ballard Power Systems Inc. is incorporated in British Columbia, Canada. 1986. Development of the first Ballard fuel cell stack operating on pressurized air. 1983. In the course of investigating environmentally-clean energy systems with commercial potential, Ballard began working on the development of PEM fuel cells. 1979
