

How much power does a Baojun Yep have?

The Baojun Yep is powered by a permanent magnet synchronous motor with a maximum power of 50 kW, maximum torque of 140 Nm and a top speed of 100 km/h. The car comes standard with a lithium iron phosphate battery with a capacity of 28.1 kWh and a CLTC range of 303 kilometers.

Who makes the Baojun Yep electric mini SUV?

The actual pictures of the Baojun Yep electric mini SUV were recently spotted in China for the first time without camo. Yep is made by a Chinese joint venture between General Motors, state-owned SAIC, and Wuling; it's usually a shortcut to SGMW.

Is Baojun Yep an electric pickup truck?

The fun-size Bronco-like Baojun Yep EV (YueYe in Chinese), made by the joint venture between GM, SAIC, and Wuling Motors (SGMW) in China, is now getting an electric pickup truck version. SGMW officially unveiled one of the coolest electric SUVs in China last month, called the Baojun Yep.

Does Baojun have an electric Yep?

That said, Baojun unveiled a two-door, two-seater, purely electric pickup version of the Yep on its Weibo account Monday made by SGMW design. The SUV version comes as a four-seater that's 3,381 mm long, 1,685 mm wide, and 1,721 mm high, or roughly two feet shorter than the gas-powered Suzuki Jimny.

What is a Baojun Yep?

The first images of the Baojun Yep (YueYe in Chinese) - a mini electric SUV made by a joint venture between GM, SAIC, and Wuling (SGMW) - have surfaced in China. The two-door compact SUV bears a resemblance to a Ford Bronco, only fun-sized.

Does Baojun have a Yep plus?

(Image credit: Baojun) SAIC-GM-Wuling has updated its mini electric vehicle (EV), the Yep, and introduced a new, larger variant of the model, the Yep Plus, to target a wider demographic. The automaker's Baojun brand officially launched the 2024 variant of the Yep at an event held today, raising the starting price.
