

Barbados vary solar panel

The findings indicated that there was a 3 to 4% premium on homes with solar panels. While this 2011 study did not indicate a positive return from a discounted present-value calculation, it was widely acknowledged that this return would be more positive as manufacturing costs have decreased and efficiency of cells increased, over time.

Factors such as roof type, roof pitch, number of solar panels, and available system components all impact the final cost of a system. Due to the fast moving nature of the solar industry the cost is constantly dropping. ... First utility scale solar farm (10MW) in Barbados; Join Our Newsletter. Get notified about new content.
