

# Bermuda cost of battery bank

What is Bermuda Electric Light Company (Belco)?

Bermuda Electric Light Company (BELCO) has one primary objective--to supply our customers with safe, reliable, affordable electricity. Our ultimate goal is to become a renewable energy company and we are working steadily towards that goal. My personal commitment to the people of Bermuda--our valued customers--is honest and transparent communication.

Should Bermuda build a fossil fuel power plant?

No one wants a fossil fuel power plant in their backyard but with Bermuda's limited landmass, the only short-term option was to build a generation plant while the long-term strategy calls for a big change to a renewable energy future. A culture of change is what we are implementing in our Company.

Do longer duration batteries have a lower capital cost?

On a \$/kWh basis, longer duration batteries have a lower capital cost, and on a \$/kW basis, shorter duration batteries have a lower capital cost. Figure 6 (left) also demonstrates why it is critical to cite the duration whenever providing a capital cost in \$/kWh or \$/kW. Figure 6.

Battery Type and Capacity. The choice of battery type (e.g., lead-acid, lithium-ion) and its capacity significantly impact pricing. Different battery chemistries offer varying performance, lifespans, and costs. A 10 kWh lead-acid battery system might cost approximately \$4,000, while a similar 10 kWh lithium-ion system could be priced at \$8,000.
