

What is a Bess project?

The SPPC, administered by the Saudi Ministry of Energy, aligns with the National Renewable Energy Program (NREP). Once completed, the BESS project is expected to be the world's largest. Location: Saudi Arabia Capacity: 8GWh of storage capacity Significance: World's largest BESS Project Main Company Involved: Saudi Power Procurement Company

What is the largest Bess project in Saudi Arabia?

Location: Saudi Arabia Capacity: 8GWh of storage capacity Significance: World's largest BESS Project Main Company Involved: Saudi Power Procurement Company Project duration: 15 years The world's largest BESS project in Saudi Arabia is one that has received accolades from the state government.

What does Bess stand for?

The implementation of the world's largest battery energy system(BESS) project progresses as Saudi Arabia begins qualification tenders. A Saudi Arabian entity that has been tasked with procuring electricity generation projects has commenced the process. Saudi Power Procurement Company (SPPC) is licensed as the sole buyer of electrical energy.

What is the world's largest Bess project?

The world's largest BESS project in the region shows that the nation is determined to achieve this endeavor. Last week, Prince Abdulaziz revealed that the Kingdom is seeking to establish significant battery energy storage capacity. It is part of the plan to strengthen and expand its electricity infrastructure.

What is Bess & how does it work?

The BESS is expected to replace part load operation of existing power plants by charging & discharging according to the system load variations, primary & secondary reserve and shall also operate to provide voltage and frequency regulations.

Where will Bess facilities be located?

The company also noted that the current tenders represent the first batches of solicitations. The locations of the four BESS facilities have already been decided. Two will be in Makkah province, one in Qassim province, and the other in Hail province. They have also been termed as independent storage projects (ISPs) by SPPC.

This exciting collaboration aims to leverage Hithium's expertise in energy storage and Hithium MANAT's local insight to better serve the Saudi Arabia market. The joint venture also plans to establish BESS (Battery Energy Storage System) manufacturing facilities in Saudi Arabia, targeting an annual production capacity of 5GWh.
