REITs and real estate derivatives from Cayman Islands real estate are relatively uncommon due to the relatively small size of the jurisdiction and the taxable event that arises when an interest in land (including the equity ...

The Cayman Islands, a British Overseas Territory nestled in the Caribbean Sea, stands as a prominent offshore jurisdiction. It owes its allure to the remarkable flexibility of the Cayman Islands' "Companies Law." Remarkably, this region serves as a vital offshore financial hub, drawing investors from far and wide. Surprisingly, the territory's revenue predominantly ...

The Maples Group is a leading service provider offering clients a comprehensive range of legal services on the laws of the British Virgin Islands, the Cayman Islands, Ireland, Jersey and Luxembourg, and is an independent provider of fiduciary, fund services, regulatory and compliance, and entity formation and management services.

A master-feeder structure in Cayman Islands is a way of bringing together funds from different types of investors. It can be particularly appealing to US companies as it allows US-taxable businessmen to invest alongside US tax-exempt and non-US entities. By combining the funds, the structure can also reduce the costs of managing the fund, making it more efficient.

Wärtsilä Corporation, Press release, 26 September 2022 at 14:00 UTC+2 The technology group Wärtsilä will supply two 10-megawatt (MW) / 10-megawatt hour (MWh) energy storage systems under an Engineering, Procurement, and Construction (EPC) contract to Caribbean Utilities Company Ltd (CUC) in the Cayman Islands. This project, which will be ...

Battery Energy Storage Systems (BESS) Similar to renewable load shifting, the EV charging and energy management platform can replace grid energy by discharging a local onsite BESS to provide energy for EV charging, thus "shaving" the peak. Once demand recedes, the platform can use that time to recharge the BESS from the grid and store that ...
