Can I use my own electricity in Saint Lucia?

The majority of electricity outlets in Saint Lucia take three-pin square plugs, which is the same as those used in the United Kingdom. Therefore, visitors from the UK will not have any problems using their own appliances. However, visitors from other parts of Europe or the United States will need to bring their own transformers or adapters.

Can I use a power outlet in Saint Lucia?

In a St Lucian power outlet, the frequency of an alternating current is 50Hz. It is possible that a plug that is capable of being used in Saint Lucia will not work on another island.

What kind of power does St Lucia have?

St Lucia uses 110-120 volts AC (alternating current) for its electrical appliances. This is typically the case with most appliances in the country. It's important to note that the majority of power sources on the planet are powered by voltage ranges from 220-240 volts.
