What is the best solar generator for home backup?

The Renogy Lycan is one of the largest and most capable solar generators in the market right now. It's designed to be wired to a home power grid. You can even set it up as a UPS, ensuring essential appliances stay powered in a blackout. That, plus its fast charging performance makes the Lycan 5000 one of the best solar generators for home backup.

Are solar generators a good option for your home?

Solar generators are quiet, lack any harmful fumes and exhaust, and are completely renewable. With a handful of well-placed solar panels, you can provide a FREE supply of backup power for your home. Today, solar home backup power is within reach of everyone.

What is a solar generator?

Solar generators are smaller-scale versions of whole-house solar panels and batteries. Portable power stations have been available for a while now and using home solar panels to charge on the go is the next logical step. Combine portable power stations with portable solar panels and you have yourself a solar generator.

Are solar generators portable?

Solar generators don't have to be portable, but many are designed to be. A solar generator is only as portable as your ability to move it. If you're going to be schlepping it around a worksite every day, or just moving it every once in a while while you're camping, weight may be more or less important to you.
