

Birch energy company inc Eritrea

How is electricity generated in Eritrea?

Eritrea's NDCs were developed in 2018. The majority of electricity generated in the country is from imported fossil fuels. In 2019, the electrification rate in rural areas of Eritrea was only 37%, compared to 76% in urban areas. Some projects financed by international donors are aimed at increasing these rates.

Does Eritrea have a solar farm?

Eritrea is lagging far behind in the electrification of its territory and is now turning to renewable energy. The government has launched the country's first solar farm, a 30-MW facility 30 km from the capital, Asmara.

Does Birch resources have a big-oil-well streak?

Birch Resources is continuing its big-oil-well streak in the Dean formation in southern Dawson County with two new wells IP'ing up to 2,768 bbl/d.
