

# Bluewater energy services Bahrain

What services does Bluewater provide?

We also provide operational and logistic management and support for offshore Production and Energy Systems. For offshore production and transfer of renewable energy, Bluewater has developed a Floating Wind TLP, a Tidal Energy Converter Platform, Solar Matresses and the Electrical Buoy.

Who is Bluewater Energy?

Bluewater Energy provides focused technical services to the energy and industrial marketplace from facility or program conception, startup & commissioning to long term operation. Bluewater understands your business and provides strategic solutions that give you a competitive advantage.

Who is Bluewater mooring & energy production?

At Bluewater we use our decades of experience to provide safe and reliable offshore solutions. We take pride in being one of the technological leaders for offshore mooring and energy production systems. We take care, think dynamically, are inspired to make impact and are committed to deliver.

What mooring systems does Bluewater offer?

Bluewater has developed some of the most innovative SPM solutions, including catenary anchor leg mooring (CALM) buoys and tower, internal and external turret mooring systems. Bluewater's tidal energy converter (BlueTEC) is an open-architecture floating support platform suitable for tidal turbines.

What makes Bluewater a sustainable company?

At Bluewater, safety is paramount, and we prioritize the well-being of our employees, customers, and the environment. Sustainability is a fundamental aspect of our operations, documented in our Environmental, Social, Governance (ESG) report. Moving us towards an even more sustainable future.

Bluewater has developed a system to produce electrical power near-shore by harvesting tidal energy with a floating tidal energy converter. Building on our decades of experience in mooring and transfer systems offshore, we have successfully designed and field demonstrated a floating, tidal energy converter "Bluetec".
