How much solar power does Kosovo have?

Kosovo had just 7 MW of installed PV capacity at the end of 2019, according to the International Renewable Energy Agency. The country recently raised its renewable energy target to an additional 400 MW of capacity by 2026. That would be enough to meet a quarter of its power demand and would reduce dependence on aging coal-fired power plants.

How will the EU support the energy transition in Kosovo?

The EU will support the energy transition and sustainable development of Kosovo through another 100-megawatt solar electricity project with the Kosovo Energy Cooperation. The EU's contribution to solar heating and electricity projects in Kosovo will total almost EUR 56 million.

Will Kosovo's first large scale solar park be built?

No further details were revealed on the project. When built, the plant will be Kosovo's first large scale solar park. The Kosovar government has made several attempts to support small sized and utility scale solar in the past. These efforts, however, have produced little results to date.
