Eventuell hat hier auch jemand mit einer anderen BMS gute Erfahrungen und kann mir von einer anderen Firma eine empfehlen - so lange bekannt ist wie man die ...

Hallo zusammen, auch wenn meine Anfrage bei Seplos schonläuft, hier auch noch mal in die Runde (ggf. hat ja jemand eine Idee): Ich habe zwei Seplos Mason 280Ah mit EVE-Zellen, 1x "BMS 2.0" und eine neue mit dem 3.0. 2. I use the BMS port on the inverter to connect to the CAN port on my Seplos BMS and it works fine. Again I use regular ethernet cables. These instructions can be found in both manuals and they work for me. 3. I use the two other RS485/2 ports on the BMS to connect to my laptop to configure/monitor the BMS. Either can be used.

I also like the PC Software UI and the BMS firmware is also updatable. My only con is the charging algorithm/software implementation which Andy from OffGrid garage has commented upon.

The white one in the middle is what came with the BMS direct from Seplos. I asked Seplos to supply it in order that I got a compatible convertor. The other two were purchased online. But now I look at the Seplos website I ...
