Will Scatec Asa build a 50 MW solar plant in Botswana?

GABORONE, Aug 31 (Reuters) - State-owned Botswana Power Corporation (BPC) has awarded Norwegian company Scatec ASA (SCATC.OL) a contract to build a 50 MW solar plant, the companies announced on Wednesday, BPC's first utility-scale renewable energy project as Botswana looks to boost power supplies and increase clean energy shares.

Where is SATEC based?

Today, SATEC is a global company, with U.S. offices in Union, NJ, catering to the Americas and a subsidiary in Beijing (SATEC China) catering to the Chinese market. SATEC operates in over 60 countries and has dedicated recognized self-branded SATEC partners in several of them.

Does Botswana have solar power?

Botswana currently does not have any large-scale solar power generation and its 600 MW national energy demand is predominantly met by state-owned coal-fired plants.

How did SATEC get started?

Initial funding came from the mining industry, which had vested interest in developing novel hydrometallurgical solutions [buzzword] for the processing and smelting of gold out of ores of low gold content. Two years after, SATEC was already in its current location in Har Hotzvim, Jerusalem's Hi-tech industrial park.

How much power will Botswana produce by 2030?

Endowed with over 212 billion tonnes of coal, fossil fuels are likely to dominate power generation in the near future but Botswana has a target of at least 18% of national production being generated from renewables by 2030.

Explore SATEC range of power quality solutions today and discover how we can help you ensure power reliability, enhance efficiency, and safeguard your equipment. PM335 PRO. Satec PM335 PRO is used for advanced power monitoring applications of both AC and DC current. With waveform recording capabilities and 16GB of storage, it is a powerful ...

SATEC - Solutions And Technology for Energy Control. SATEC's presence in Australia brings together 40 plus years of experience and knowledge for Energy Management Solutions. The culmination of local expertise and SATEC's ...

SATEC has entered this advanced field of solutions, offering a Phasor Measurement Unit, or PMU in short, as a module for the PM180 power quality analyzer. Complying with both P-Class and M-Class requirements, and combining its all-in-one functionalities and features, our PMU stands out as a unique solution.

Botswana satec powerful solutions

Cost-effective: saves drastically on installation costs and space occupied by dozens of legacy meters. Multi-circuit: multi-load metering. up to 12 three-phase loads; up to 34 single-phase loads; various combinations of the two; Revenue Meter:.. Class 0.5/0.5S accuracy per ANSI C12.20 / ...

Explore SATEC range of power quality solutions today and discover how we can help you ensure power reliability, enhance efficiency, and safeguard your equipment. PM335 PRO. Satec PM335 PRO is used for advanced power ...

SATEC is a developer and manufacturer of specialty solutions for power measurement and power quality monitoring. The company's range of products includes traditional 3-phase power meters for real-time power measurement and data-logging, revenue meters (electricity meters), power quality analyzers and a software suite for energy management and billing. With headquarters in Jerusalem, Israel and subsidiaries in Union, New Jersey and in PRC, SATEC...

Scatec ASA has achieved financial closure for the first 60 megawatts (MW) of the Mmadinare Solar Complex in Botswana. In August 2022, Scatec and the Botswana Power Corporation (BPC) signed a binding 25-year ...
