What is breath battery technologies?

Breathe Battery Technologies was supported by the Grantham Institute - Climate Change and the Environment through the Climate-KIC programme. London-based startup Breathe Battery Technologies has raised £1.5m to scale up and accelerate the deployment of its intelligent battery management algorithms in electric vehicles and smartphones.

Is breath a good battery management software?

As Campbell tells it, Breathe's software is pretty lightweight. On a typical battery management system, "there's about 99.9% of the software that we don't touch," he said. Despite that relatively small code footprint, Campbell thinks that software like Breathe's and others' suggest that batteries are about to enter a new era.

Does breathe have a battery performance solution?

UK startup Breathe Battery Technologies reckons it has the solution- or part of it, at least. "Breathe is a battery performance company," says Dr Ian Campbell, CEO, Breathe Battery Technologies.

Why should you use breath physics-based battery management software?

With Breathe physics-based battery management software, you can deliver products with faster charging, greater cycle life and zero compromise on safety. As product leaders and battery experts, you constantly have to make impossible trade-offs between charge speed, cycle life, energy density, and profit margins. Until now.

Should a battery manufacturer use breath?

Luckily for battery manufacturers, Breathe's approach is complementary to many advances in cell chemistries. The real race is to boost energy density to give mobile devices more uptime or EVs more range. If another company can offer faster charging times or improved longevity "for free," it makes sense for OEMs to hop onboard.

How can breath improve battery performance?

Breathe's software approach to battery optimization promises to enhance charging speed and lifespan without needing new cell chemistry or hardware changes.

Breathe Battery Technologies's latest funding round was a Grant for on May 28, 2024. Date. Round. Amount. Investors. Valuation. Valuations are submitted by companies, mined from state filings or news, provided by VentureSource, or based on a comparables valuation model. Revenue. Sources. 5/28/2024. Grant.
