El Territorio Británico del Océano Índico o Islas Británicas de Chagos (en inglés: British Indian Ocean Territory, BIOT, o British Chagos Islands, BCI) [2] [3] comprende unas sesenta islas ...

Citicore Renewable Energy Corporation (CREC) is a leading pure renewable energy developer and operator of solar, run-of-river hydro, and wind energy platforms in the country. It is the second-largest solar platform, with a total of ten solar power plants and micro-grid solar rooftop systems, with a total installed capacity of 285 MW.

The raised proceeds will go to partially fund the renewable energy company's capital expenses and will cover general corporate needs. A portion of the fresh capital will support the development of solar and battery energy storage projects supporting CREC's goal of adding 1 GW of ready-to-build or under-construction solar capacity to its portfolio each year through 2027.

The British Indian Ocean Territory has some of the most biodiverse waters on the planet with over 220 species coral, 855 species of fish and 355 species of molluscs. To ensure the future protection of this unique environment the BIOT Commissioner declared a 640,000 km²; "no-take" (where all commercial fishing and extractive activities are ...
