

Could Sardinia occupy a unique position in the Mediterranean?

Such is Sardinia's natural beauty that its "Costa Smeralda" or "Emerald Coast" is famous the world over, but perhaps green is a more appropriate colour for describing the island's future, as it leads the way in the energy transition. According to Enel CEO Francesco Starace, Sardinia could occupy a unique position in the Mediterranean.

Does Sardinia have an electrification plan?

We believe that it is "yes", says Starace. In specific terms, the electrification plan for Sardinia is based on the island's natural resources, specifically sun, wind and water, all of which are in abundance.

What is Enel's plan for Sardinia?

This is also thanks to its attractive qualities, in terms of its tourism and "strong entrepreneurial spirit." Enel's plan for Sardinia, like those for its operations elsewhere, is focused on the year 2030.

Will Sardinia be connected to Italy's national grid?

This will connect Sardinia to Italy's national grid. The deadline for closing down coal-fired power plants is 2025. In some cases, gas is seen as a temporary alternative but, as Starace points out, there is no gas in Sardinia and therefore this phase can be "skipped" altogether.

Is Sardinia a good destination for sustainable tourism?

In other words, Sardinia is perfect for sustainable tourism. The reason for this optimism is well founded.

Will decarbonisation skip the gas stage in Sardinia?

As Enel continues on its journey as Renewables Super Major, CEO Francesco Starace offers a road map for the decarbonisation process in Sardinia (Italy) in which decarbonisation will skip the gas stage altogether. And, as part of a just transition that leaves no one behind, the electrification process will create thousands of new jobs.

Revised Regulations of the British Indian Ocean Territory Proclamation 2024; Revised Regulations etc. of BIOT - Chapter F. The Immigration (Exemption) Regulations 1971 F.1; The Prohibited Imports & Exports Control Order 2009 F.2; The BIOT (Immigration) Order Notice of Exemption Order 2017 F.3; Revised Regulations etc. of BIOT - Chapter G
