

Who owns BTE renewables?

ENGIE and Meridiam acquire BTE Renewables. ENGIE and Meridiam announce today that they signed a Sales and Purchase Agreement with ACTIS on the full scope of BTE Renewables, a developer, owner and operator of renewable assets on the African continent, with an operating presence in South Africa and Kenya.

What is BTE renewables?

Actis set up the renewables platform in 2017 after it acquired the Kipeto wind project in Kenya in its development stage. In 2019, it expanded the platform with the purchase of BioTherm Energy, a South Africa-focused company, and rebranded it as BTE Renewables. BTE aims to develop utility-scale solar and wind projects across the African continent.

Why did BTE buy Engie?

With BTE's acquisition, Engie will benefit from an additional 340MW net of renewable operating assets in South Africa. These include 150MW in wind and 190MW in solar. The acquisition also includes a portfolio of more than 3GW in advanced development pipelines and projects, and a workforce of 80 professionals.

Is biomass a good energy source in Mali?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Mali: How much of the country's energy comes from nuclear power? Nuclear energy - alongside renewables - is a low-carbon energy source.

Who is BTE & inspire?

BTE was one of the four founders, alongside Actis, of the Initiative for Social Performance in Renewable Energy (INSPIRE), which was established as a non-profit company to support skills development to maximise the economic development and transformational potential of South Africa's renewable energy sector.

What does BTE do?

BTE aims to develop utility-scale solar and wind projects across the African continent. The company has a portfolio of six operating projects totalling nearly 500MW, five in South Africa and one in Kenya. The transaction involves a transfer of the Kenyan assets from Engie to Meridiam upon completion in the fourth quarter of 2023.

BTE Renewables successfully brought online four renewable energy IPP projects in South Africa. The company's flagship project, Kipeto, includes an intensive SDOD program with a wide range of conservation ...
