Bulgaria outdoor server rack

What is an outdoor server rack?

An outdoor server rack or patch cabinet is a 19-inch cabinet that has four 19-inch mounting profiles. In these profiles,you directly attach 19-inch network equipment,such as a rack server,patch panel,switch or ups. The difference between a 'normal' server rack and an outdoor server rack is that the outdoor rack is weatherproof.

How does the outdoor server rack cabinet work?

The cabinet design allows natural wind coolingthrough filtered vents on the front door and venting under the lip of rain hood.The outdoor server rack cabinet comes 2 or 4 fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.

Are outdoor server racks waterproof?

These are manufactured from galvanized steel,aluminum or stainless steel material,making them the perfect layer of security against outdoor bad weather conditions. The 19" waterproofoutdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably.

Are outdoor server cabinets waterproof?

The 19" waterproofoutdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably. Our outdoor server cabinets are built to withstand everything,from rain and snow to dust and hot sun. They're even tough enough to resist vandalism.

What are outdoor server cabinets?

The outdoor server cabinets range provide a high quality solution for protecting your telecoms and industrial equipment from the indoor or outdoor elements,optional sizes from 12U to 42U. In addition, these can be wall-mounted, saving space and also highly affordable.

Why do outdoor server cabinets have ventilation holes?

Even with an outdoor server cabinet,ventilation is important. The temperature inside the cabinet must not rise so that the active equipment does not overheat. This is why the outdoor cabinet has ventilation holes at the front. The holes are covered so that water cannot get into the cabinet when it rains.

We have freestanding or wall mount style outdoor server racks. All of our outdoor server racks are built to protect your expensive network equipment from exposure to the environment such as dust or water. 4Cabling outdoor server rack also has a pivoting rain hood, and the front door dust filters are easily accessible for cleaning.
