

Why is Burkina Faso launching a solar power plant in Komsilga?

Loading... In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic growth and improved access to electricity.

Does Burkina Faso have energy issues?

In Burkina Faso's Poverty Reduction Strategy Paper (PRSP) there is no specific mention of energy or environment issues. The current version (2009-2011) has chapters on "reduction of pollution" and on "sustainable management of natural resources" without reference to energy issues.

Is Burkina Faso electrified?

Burkina Faso is one of the least electrified countries globally, currently at 19% overall, with 60% of the urban and only 3% of the rural population connected to electricity. Access to non-solid fuels is also very limited, reaching around 8% nationally.

Will a 50 MWp solar power plant bolster Burkina Faso's electricity supply strategy?

In a pivotal move to bolster Burkina Faso's electricity supply strategy, the Minister of Energy, Mines, and Quarries, Simon-Pierre BOUSSIM, and Serge CONSEIGA, General Director of Energie Plus, sealed an agreement for the construction of a 50-megawatt peak (50 MWp) solar power plant in the commune of Komsilga, Burkina Faso.

What is a man 18v51/60ts power plant extension in Burkina Faso?

MAN Energy Solutions is supplying three MAN 18V51/60TS engines for a power plant extension in Burkina Faso. Located in Kossodo - a suburb of the capital city, Ouagadougou - the extension will feed a total of 55 megawatts (MW) of electrical power into the national grid, thus increasing the country's generation capacity by almost 20%.

Are there stoves in Burkina Faso?

There are a number of improved stoves which were introduced in Burkina Faso at the end of the 1970s and the beginning of the 1980s. They take these aspects into account, and cost today around 5 30 years, they were not really to be found or used in the households at the onset of FAFASO.
