Praia, Cape Verde - On Thursday, July 18, 2024, the United States government, through the U.S. Agency for International Development (USAID) and Power Africa, in partnership with the Government of Cabo Verde and the private sector launched a clean energy solar mini-grid plant located at Chã das Caldeiras in the Santa Catarina do Fogo Municipality.

In 2012 Cape Verde had an installed electricity generation capacity of around 300 MW, of which about 24% from wind power plants and 3% from photovoltaic stations. While solar power has an enormous potential as a source of renewable energy, natural conditions in Cape Verde are one of the best in the world for the production on wind energy.
